Our Partners:

Borna Traduccions is an Andorran company formed in 1994 to offer services of translation, interpretation, correction and transcription. Since April 2011, Marta Sementé Puigdemívol – sworn translator and interpreter in the Principality of Andorra since 2003 – has lead the team of thirty national and international sworn translators and collaborators.

Services: All our services are provided by native language professionals.

Simple translations: are not signed, sealed or bound with the translated document.

Sworn translation: are destined to formal use and therefore are signed and sealed by a sworn translator and are always bound together with the original document.

In Andorra, among all the sworn translators authorised by the Government a dozen languages are covered. However, when there is no professional in the country to translate a specific language, we work with sworn translators in other countries who are authorised to swear the language in question.

Founded in 1992, TransPerfect Legal Solutions (TLS) is a division of TransPerfect, the world's largest privately held language services provider. Supported by over 70 offices on 5 continents, we have established round-the-clock production capabilities that enable us to offer the fastest turnaround times in the industry – 30% faster on average than our competitors'. At TLS, we can ensure accurate, specialised and timely solutions backed by second-to-none client service.

A Record of Success

See why TLS is trusted by the world's top legal professionals for their outsourcing needs:

Unparalleled Quality: TLS is the only legal support services provider to be fully ISO 9001:2000 and EN 15038:2006 certified.

Expert Knowledge: Our skilled ESI consultants have decades of experience and are certified in all major review platforms. In addition, every linguist has been rigorously tested and must have at least 5 to 7 years of experience in the legal field.
